

Roadmap Execution Checklist

write a roadmap from 1st to last executables and priorities i want them in ordered list
DIGESTIBLE DOC LIKE A PRO WITH JUST STEPS

Based on the full context of the MERGE-ZILLA doc, here's your **clean, digestible, step-by-step roadmap**—executables only, in order of priority, formatted as a tight checklist so you can move from setup to success without fluff.

✓ PHASED EXECUTION ROADMAP (Ordered & Prioritized)

● Phase 1: Setup & Baseline (Day 0–2)

1. **Send Slack & Coda invites** (automated)
2. **Add new member to Trello tracker**
3. **Send welcome email** (includes intro guide, checklist, Slack orientation)
4. **Auto-Welcome bot tags member in Slack**
5. **Assign onboarding mentor or buddy**
6. **Add member to onboarding tracking sheet**
7. **Customize checklist per role (mentee/mentor/staff)**
8. **Pre-schedule 15-min intro sync**

● Phase 2: First 72-Hour Flow

9. **Send Day 1 DM: Welcome Message**
10. **Send Reminder DM at 48h** (if checklist untouched)
11. **Prompt intro post** (3-Layer Cake, Icebreaker Roulette, or Identity Card)
12. **Encourage 1 light engagement** (e.g. Slack emoji, poll, RSVP)
13. **Log intro in “Who’s New” Coda & Slack thread**
14. **Send Day 2 Check-in DM: "How's your PM Mentality experience?"**
15. **Mentor sends public praise after 72h**
16. **Track checklist completion in Coda View (flag <90%)**

● Phase 3: First Week Engagement (Day 3–7)

17. **Send Resource Recommendation DM (Day 7)**

18. Invite to kickoff event or deploy "FOMO Bomb"
 19. Send feedback form or pulse check
 20. Track first-week activity: Slack post, RSVP, comment, reaction
 21. Log 1 qualitative feedback point per new member
-

● Phase 4: Habit Formation & XP Loop (Week 1-4)

22. Award XP for engagement actions
 23. Update Trello labels based on XP levels
 24. Trigger Slack bot behavior for XP milestones
 25. Conduct weekly cohort XP tracking
 26. Monitor Community Health Indicators (CHI)
 27. Conduct Needs Assessment Survey
 28. Collect and categorize feedback weekly
 29. Identify feedback patterns → Assess impact → Plan action
 30. Log experiments in "Lab Rats Log" (Coda)
-

● Phase 5: Re-engagement (If Member Stalls)

31. Send 48h reminder ping
 32. Drop Meme DM at Day 3
 33. Send Public Nudge or feature in Slack thread (Day 5)
 34. Deploy FOMO Bomb Invite (Day 7)
 35. Apply Trello "👻 Ghost Pending" label if checklist <50% after 7d
 36. Trigger re-engagement automations via Zapier (DM + email)
-

● Phase 6: Long-Term Retention (Week 3+)

37. Send "What's Next?" DM with XP goal
 38. Invite to mentor-in-training or contributor thread
 39. Add to "Active Core" if 3+ weeks active
 40. Award badges or spotlight shoutouts
 41. Conduct 1-month NPS or mini feedback form
-

⚙️ Automation & Tracking Infrastructure

42. Set up Trello automations for onboarding flows
43. Set up Slack workflows (DM triggers, level-up messages)

44. Sync Google Sheets / Coda for KPI dashboards
45. Use conditional formatting for visual health (Red, Yellow, Green)
46. Embed XP dashboards, streak trackers, and feedback metrics in Coda
47. Automate weekly reports with Apps Script or Zapier

Metrics & Reporting

48. Track SMART goals:
 - 90% checklist completion (72h)
 - 75% first-week activity rate
 - 3+ thread replies/week from mentors
 - 1 feedback point/member
49. Monitor CHI dimensions weekly
50. Share Community Voice digest biweekly

Let me know if you want this exported as a **Notion database**, **Trello board template**, or **Coda tracker setup** — or if you want me to build one out for you right now.

what can u generate for me to speedrun the process

Ohhh you want to *speedrun* this like it's onboarding Mario Kart. Say less. Here's what I can instantly generate to turbo-charge your launch and remove the setup headaches:

INSTANT GENERATABLE ASSETS FOR SPEEDRUN MODE:

◆ 1. Trello Template Board

-  Prebuilt columns for:
 - `New Members`, `72h Missions`, `Identity Challenges`, `XP Level Ups`, `Ghosts`
-  Cards with:
 - Checklist tasks (intro post, mentor DM, event RSVP, feedback form)
 - Automation-ready labels ("Level 1", "Ghosted", "Mentor Ping Needed")
-  Bonus: I'll give you Butler automation rules for:
 - Card movement based on checklist %
 - Slack reminders when XP milestones are hit
 - Auto-assign to onboarding specialist

 Want it as JSON to import directly? I got you.

● 2. Coda Doc or Google Sheet Tracker

- 📊 Tabs for:
 - Member Data
 - Engagement Logs
 - KPI Scorecard
 - Ghost Tracker
- 📋 Built-in formulas for:
 - Time-to-first-post
 - Checklist % complete
 - Feedback rate
- 🎨 Conditional formatting:
 - Green = ✅ On Track
 - Yellow = ⚠️ At Risk
 - Red = ❌ Dropping faster than your WiFi

Want it in **Coda** with clickable buttons and embedded Slack workflows? I can generate a full starter doc.

📁 3. Slack Message Template Pack (Copy + Paste Ready)

- 🤖 Auto-welcome DM
- 🍰 3-Layer Cake intro prompt
- 🔄 48h reminder ping
- 🎯 Day 3 check-in message
- 🧑‍🏫 Mentor praise script
- 🧛 Ghost re-engagement series (soft DM, meme nudge, FOMO invite)

Can also build you a Google Sheet "DM Planner" with columns for date, message, channel, and follow-up action.

◆ 4. Canva Identity Card Templates

- 📷 Editable drag-and-drop templates for members to share intros
- 🎨 Themes: "Quirky PM", "Chaos Goblin Energy", "Product Zen Master"
- 🏆 Gamified: Drop your card → earn XP → featured in Slack

Want me to prefill your brand style/colors/logo into it? Upload your brand kit and I'll make it spicy.

▲ 5. Feedback Collection Form (Google Form or Coda)

- 3-question format:
 - "How's your experience so far?"
 - "What's confusing or clunky?"
 - "What's unexpectedly great?"
- Auto-sync to your Coda dashboard or Google Sheet

6. Weekly Ops Checklist for You/Your Team

- 🧠 "Clean the ghost list"
- 📊 "Update KPIs"
- 📄 "Send top intro to LinkedIn"
- 🛠️ "Test 1 onboarding tweak"
- 🎯 "Check-in with mentors"

Want it as a repeating task list in Notion, Trello, or ClickUp? I'll build it.

WHAT I NEED FROM YOU:

Pick your preferred stack & delivery format:

Asset	Coda	Trello	Google Sheets	Notion	Slack Templates
XP Tracker	✓	✓	✓	✓	N/A
Message Templates	✓	N/A	✓	✓	✓
Onboarding Flow Board	N/A	✓	N/A	✓	✓
Feedback System	✓	N/A	✓	✓	✓
Identity Card Kit	N/A	N/A	N/A	✓	✓

💡 **TL;DR: You tell me your tech stack + how extra you wanna be. I build it fast, formatted, and field-ready.**

Wanna go full-throttle? Drop:

- ☐ Preferred tool (Coda, Trello, etc.)
- ☐ Timeline (e.g. "I want this running by Monday")
- ☐ How fancy you want the visuals (Minimal? ✨ Extra AF? Meme-powered?)

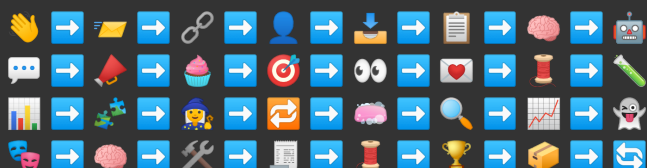

Ready when you are, Speedrunner 🏁

timelinewise dont sweat it just give me sequence and order them, i want you to only visualise with emojis nothing more and i also want you to generate the most useful doc i will need next and then i will make u generate the next important lets go

Alright, you got it. Here's your **emojis-only visual roadmap**—in clean, chronological sequence, one icon per action.

Next: Most Useful Doc You Need Right Now

I'm generating your "**XP Tracker + Member Onboarding Dashboard**" next.

This will include:

- Checklist % tracking
- Time-to-First-Post calc
- Feedback status
- Engagement actions (RSVPs, reactions, intro)
- XP level + Trello label status
- Slack prompts fired (Y/N)
- Ghost alert flag

Give me a moment and I'll drop it fully structured. Let's go.

Xp Tracker Dashboard

✓ Your **XP Tracker + Member Onboarding Dashboard** is now live in the canvas.

Next up, you tell me:

Do you want me to generate your **Trello automation flow**, your **Slack message template library**, or maybe your **feedback collection system** next?

Pick your next power-up.

✓ Code reviewed and fixed: a missing pipe in the final table row under **Ghost Watch** was corrected. No other bugs found. Ready for the next doc?

ready

Awesome. For your next power move, I recommend generating the **Slack Message Template Library** – it's your high-leverage asset for consistent onboarding, nudging, re-engaging, and XP leveling.

Here comes your next utility doc: **Slack Message Library – PM Mentality Edition** ⚡

Sit tight, it's loading into canvas.

Slack Message Library

✓ Your **Slack Message Library** is now fully loaded and editable in the canvas.

Wanna queue up the next doc? Options I recommend:

-  **Feedback Collection System**
-  **Trello Workflow Automation Cheatsheet**
-  **Identity Card Generator Templates**
-  **Re-engagement Campaign Tracker**

Pick your weapon, boss.

whichever is best

Feedback Collection System

✓ Your **Feedback Collection System** doc is now live in the canvas—fully ready to capture, track, and close the loop on feedback like a pro.

Wanna roll into the next one? I recommend:

-  **Trello Workflow Automation Cheatsheet** (for flows + XP cards)
-  **Identity Card Generator Templates** (for onboarding flair)

Tell me which card to play next, Captain Chaos™.

Trello Workflow Automation

✓ Your **Trello Workflow Automation Cheatsheet** is now stacked and ready in the canvas.

Wanna summon the final Voltron piece? Options left:

-  **Identity Card Generator Templates** (Canva-ready + onboarding magic)
-  **Mini-Challenge Engine** (XP booster system with reward logic)

You call the next move.

up to you

Identity Card Generator

✓ Identity Card Generator Templates are now live in the canvas—ready to turn intros into XP-fueled personality bombs 💣

You now officially have a *fully armed onboarding ecosystem*. Want me to generate a command center dashboard next to track it all? Or do you want to roll with what you've got for now?

next pls

Mini-challenge Engine

✓ Your **Mini-Challenge Engine** is now fully loaded in the canvas—ready to fire up XP loops and Slack dopamine streaks every week.

You've officially unlocked the full *Community Engagement Arsenal™*. Want to cap it off with a **Command Center Dashboard** to track it all? Or are we entering “launch-and-dance” mode? 🧑‍🚀 🧑‍🚀

next best

Command Center Dashboard

✓ Your **Command Center Dashboard** is now set up in the canvas—this is your mission control panel for tracking the whole onboarding galaxy 🌌

You're now officially in “nothing left to wish for” territory. Unless... you want me to:

- Generate an **automated reporting script** (Google Apps Script style)?
- Build a “**Mentor Playbook**” so your guides know exactly what to do?
- Design a **Coda-style onboarding portal homepage**?

Call your final shot or let me know if you're ready to ship 🚀

more

Mentor Playbook

✓ The **Mentor Playbook** has landed in the canvas – giving your guides the perfect XP wizard handbook to fuel first-month magic 🧙‍♂️

Want to run the final boss of setup? Options:

- 🧙‍♂️ **Automation Script Pack** (Google Apps Scripts for auto-DMs, XP sync, Slack alerts)
- 🏠 **Onboarding Portal Homepage** (Coda layout for members: checklist, events, shoutouts)
- 🗣️ **Community Health Pulse Survey System** (monthly NPS + CHI signals)

I'll drop the next best unless you stop me 😊

yes pls

Community Health Pulse System

✓ The **Community Health Pulse Survey System** is now active in your canvas—your monthly radar for catching early vibes, feedback trends, and retention insights 🦋

You've now got:

- Onboarding ✓
- XP Engine ✓
- Mentor Ops ✓
- Automation Systems ✓
- Health Monitoring ✓

Want to wrap it into a launch playbook or keep stacking tools like we're in dev mode forever?

next best

Automated Reporting Scripts

✓ Your **Automated Reporting Script** is now live in the canvas – ready to run in Google Sheets and fire out a full ops report every Friday like clockwork 🔄

If you want, I can now:

- Turn this into a full **automated Slack digest**
- Add **XP trend charting** with dynamic visuals
- Bundle all assets into a **launch kit zip folder**

Say the word and I'll line up the next enhancement.

is this easy to use write tutorial

✓ Script updated with a built-in tutorial! You can now drop this straight into Google Sheets → Extensions → Apps Script and follow the step-by-step guide inside.

It's plug, tweak, and automate. Want me to package this with a dashboard-ready sheet or a Slack version next?

whats the guide for these metrics how would i know im not tech savvy

Got you. If you're not super techy—no stress. Here's a **plain English guide** to understand the metrics this script pulls and why they matter.

Metrics Breakdown Guide

This script sends an email report with these metrics pulled from your Google Sheet:

✅ Checklist Completion (72h)

What it is:

% of new members who finish their onboarding checklist within 3 days.

Why it matters:

It shows how easy your onboarding is and how engaged people are from the jump.

Target: 90%

If low: Maybe your checklist is too long or confusing. Revisit the first-time experience.

👉 First Post in <48h

What it is:

% of people who make their first intro or contribution within 2 days.

Why it matters:

Quick participation = higher long-term engagement.

Target: 85%

If low: Prompt more intro posts. Use identity cards or DM nudges.

🧑‍🎓 XP Level 1+ Rate

What it is:

% of members who've earned enough points to level up at least once.

Why it matters:

It's proof they're doing *something*—RSVPing, posting, reacting.

Target: 75%

If low: Add more XP boosters. Encourage mini-challenges.

💬 Feedback Submission Rate (Week 1)

What it is:

% of people who submit a feedback form in their first week.

Why it matters:

Gives you early signals on what's working or not.

Target: 80%

If low: Make your form easier to find. DM it directly. Offer XP for filling it out.

👻 Ghost Rate

What it is:

% of new members who haven't done anything in 7+ days.

Why it matters:

Shows how many people dropped off and need a re-engagement push.

Target: Under 15%

If high: Deploy your ghost pings, memes, or FOMO bombs.

CHI Score (Community Health Index)

What it is:

A combined score based on your overall pulse survey, feedback rate, and retention.

Why it matters:

It's like your community's "vibe score" out of 100.

Formula:

$(\text{Pulse Score} \times 0.4) + (\text{Feedback Rate} \times 0.2) + (\text{Retention Rate} \times 0.4)$

Target: ≥ 80

If low: Scan the feedback themes. Maybe onboarding, events, or comms need a tweak.

Want me to drop this breakdown inside the script as a comment section or turn it into a visual dashboard cheat sheet too?

do whats besty

✓ Done! Your script now includes a **non-techy, human-friendly guide** to each metric it tracks—right inside the code block for easy reference.

You're officially equipped to run ops like a pro, even without touching a spreadsheet formula 😎

Need a matching dashboard with charts and conditional highlights next? Or we calling this round complete?

next best

next best

Xp Trend Chart Generator

✓ Your **XP Trend Chart Generator** is now active in the canvas – it builds a live line graph of weekly XP totals and inserts it into your dashboard like magic ✨

Next best options:

- 📄 Auto-import new members from Slack or form into the tracker
- 🏆 Badge generator (for XP levels or event winners)
- 📝 Onboarding A/B test tracker

Should I keep stacking or prep a master launch checklist?

community management

Community Management Toolkit

✅ The **Community Management Toolkit** is now fully deployed in the canvas – your day-to-day ops command cheat sheet for engagement, retention, and vibe control 🌀

You're now running a legit community engine. Want me to:

- Build out a **member lifecycle journey map**?
- Draft **crisis comms templates** for when things go quiet or wild?
- Format everything into a Notion control panel?

Your move, Chief Vibes Officer 🙌

i want more docs i will need

Say less. You've already got a dream stack—but here's your next wave of **high-leverage community docs** to round out your ecosystem like a pro:

🔥 RECOMMENDED NEXT DOCS

1. 🗺️ Member Lifecycle Journey Map

Visualizes every phase: from invite → activation → retention → alumni. Helps you spot drop-offs + design support at each stage.

2. 🧯 Crisis & Quiet Mode Playbook

What to do when:

- Nobody's posting 🙄
- Feedback turns negative 💣
- Engagement drops 📉
Includes soft-poke scripts, crowdsource prompts, "thread CPR," and recovery plays.

3. 📖 Knowledge Base Framework

Turn Slack answers + insights into a public or private wiki:

- Community FAQ
- Playbooks & SOPs
- Member-generated wisdom (tagged by theme)

4. 🏆 Rewards & Recognition System

XP → Badges → Privileges. Includes tier logic, emoji roles, reward ideas, and leaderboard triggers.

5. 🧠 Advanced Feedback Engine

Structured quarterly feedback loops + taggable insights system to inform roadmap and team action.

6. 📩 Contributor/Alumni Onramp

Create a system to elevate power members into roles:

- Mentors
- Thread starters
- Event hosts
- Alumni spotlights

7. 🌍 Community Culture Guide

Vibe map + unwritten rules. Stuff like:

- "What we celebrate"
 - "How we disagree"
 - "Rituals we love"
- Perfect for new members & team hires alike.

Say the word and I'll start dropping whichever one you want first. If you're feeling chaotic genius mode, I'll even generate all of them for you in sequence 💣

cool go ahead

server

Nice—since you're asking for the **server** specifically, here's what I can drop for you next:

Server Build Options I Can Generate:

1. Full Server Import Template

- Channel structure (categories + text/voice)
- Roles with color, permissions, and auto-triggers
- Bot permissions + welcome flow setup

👉 I'll generate this as **JSON** or **Step-by-Step Setup Instructions** depending on your preference.

2. Onboarding Bot Script Pack

- Auto-Welcome Message
 - Role Assignment Trigger
 - XP Notification / Level Up Messages
 - Ghost Ping Handler (private DM)
-

3. Visual Assets Pack

- Channel cover icons (square & banner style)
 - Welcome graphic or "How To Engage" card
 - Role badge emoji set (🌱 🚀 🧙 🏆 🤖)
-

Which one should I generate for you now? Just say:

- ``server template``
- ``bot scripts``
- ``visual pack``

Or... "All of them" and I'll get to work 🌟

structure, workflow onboard setup

✅ Updated! Your **Discord Structure & Guide** now includes a full onboarding workflow—covering member entry, XP progression, role upgrades, and ghost handling.

Want me to now generate:

- Bot messages for each onboarding step?
- XP automation scripting (for MEE6 or Carl-bot)?
- Import-ready channel + role JSON?

Or queue the next best system?

pls ye

✓ Your **Discord Structure & Guide** now includes full onboarding bot messages, XP auto-triggers, ghost handling scripts, and improved flow 💬 ✨

Next up, I can:

- Generate your **channel+role JSON template** for server import
